Match the education needs in your region

- Highly relevant content, aligned to local teaching and learning approaches, ensures a top-class education for all medical students globally.
- A single centralized resource of high-quality, highly reputable content removes the burden of curating and accessing regional content.

Captivate your students

- Relevant local content ensures students have a greater understanding of the regional curriculum, and a more successful transition from student to professional.
- Rich multimedia content captivates students and brings their learning to life – enriching their learning journey and unlocking their full potential.

Accelerate learning and real-world success

- Content customization ensures the lecturer can teach confidently in their style and regional flavour, delivering the best possible experience to students.
- Local cases and examples accelerate student learning and success application of learning to real-world situations.

Why Access?

Access delivers indispensable support and invaluable online solutions in medical education and clinical practice. Continuously updated with optimized content for any mobile device, it is guided by a preeminent Advisory Board that includes the medical field's top academic minds. You can also learn when, where, and how you want with the new 'Access by McGraw Hill' app, available for download from Google Play or the Apple Store.

AccessMedicine, celebrating over 20 years of digital content, is trusted by leading medical schools across 85 countries. Delivering industry-leading content on a global scale, Access aims to meet the needs of local medical teaching and learning around the world.
