

First Aid Forward is an interactive learning resource that leverages the First Aid book content students have relied on for decades, in a digital platform - enabling them to consume high-yield content throughout their courses and during their dedicated study time and preparation for board exams.

Enhances classroom engagement

Boosts learning

Content Coverage

- ▶ Well-rounded reference & case study content, covering pre-clinical Step 1 & clinical Step 2 topics - continually updated by medical professionals
- ▶ Quick-hit quizzes that prepare students for board & classroom exams

Learning Efficiency Features

- ▶ Smart search, advanced note-taking, highlighting & audio reading that help students organize how they study & learn
- ▶ Performance tracking dashboards that help students monitor their quiz performance & progress of their learning

Faculty Tools

- ▶ Usage dashboards that allow faculty to track the overall usage of the product by students
- ▶ Performance tracking dashboards that help faculty track the progress of their students' proficiency, spot check & correct areas of weakness & take personalized remedial action

“This will be a super useful tool for students and I love that First Aid is tapping into an online platform.”

–Olivia, 3rd Year Medical Student
