

What Is The Admin Dashboard?

Built For Faculty & Admin

- ▶ **First Aid Forward's Admin Dashboard** is a solution that is built into an institutional subscription to the product. It enables faculty and administrators to monitor student usage, performance, and progress with rich & personalized learning analytics.
- ▶ The dashboard is specifically tailored to meet the student learning management needs of **faculty, academic affairs staff and administrators** who require deep visibility into how students are using First Aid Forward and the progress of their proficiency across all featured subjects.

Scalable Usage & Learning Performance Analytics

- ▶ The dashboard delivers valuable student usage and learning analytics across overall cohort, subject & individual student views –spanning a range of selected timelines.

Overall Progress

- Metrics and graphs that demonstrate
 - Average reading time
 - Average quiz time
 - Seats claimed
 - Average quiz scoring
 - Overall quiz progress
 - Overall quiz score

Subject Knowledge

- Candle stick graphs that illustrate cohort performance across quartile ranges and featured subjects
- Quartile categories range from high, median to lowest scores

Individual Student View

- View all usage & learning metrics at the individual student level to assess strengths & weaknesses
- Use data to identify at-risk students in targeted & personalized ways
