

Boards&Beyond

Boards & Beyond's Clinical content offers an online virtual curriculum to help students success in clinical rotations & on board exams and strengthens their clinical reasoning & application skills.

260+ video lectures

1,390+ board prep questions

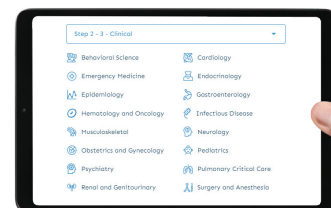

78 hours+ of lectures

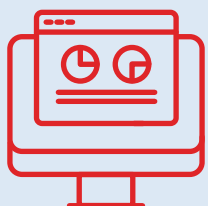

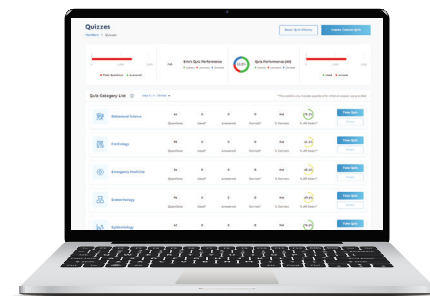

Clinical Content Coverage

- ▶ Hundreds of continually updated videos spanning 16 categories that include Cardiology, Surgery, Psychiatry, OBGYN and more
- ▶ Topics are presented by board-certified physicians who explain complex topics in an easy-to-understand format & on organized slides
- ▶ Enables students to maximize study plans with video playlist & advanced-note taking features
- ▶ Video lecture slides can be downloaded in PDF form for further use
- ▶ References First Aid book content
- ▶ Integrates with **First Aid Forward**, allowing students to cross-reference relevant content throughout both platforms with bi-directional links strategically placed at the topical level, to get a deeper and more comprehensive understanding of complex pre-clinical & clinical topics

Board-Exam Prep Quizzing & Performance Tracking

- ▶ Thousands of interactive quizzes that prep students for their board & classroom/clinical exams
- ▶ Quizzes allow students to remediate their learning progress by providing explanations of right and wrong answers
- ▶ Enables students to create custom quizzes to map prep according to their unique study structure
- ▶ Allows students to track their learning performance across all of the 16 clinical topics and their sub-topics, so that they're able to assess their readiness and strengthen weak learning areas
- ▶ Includes features like lab values and a calculator to help students navigate the practice questions

Faculty Tools & Lesson Builders

- ▶ Offers faculty dashboards that allow educators to track platform usage & performance across their classrooms and at the individual student level
- ▶ Enables faculty to build custom lessons based on Boards & Beyond content and according to learning needs, enhancing the classroom experience
- ▶ Allows faculty to use learning analytics to remediate at-risk students in targeted & personalized ways
