Boards&Beyond

What is Boards & Beyond?

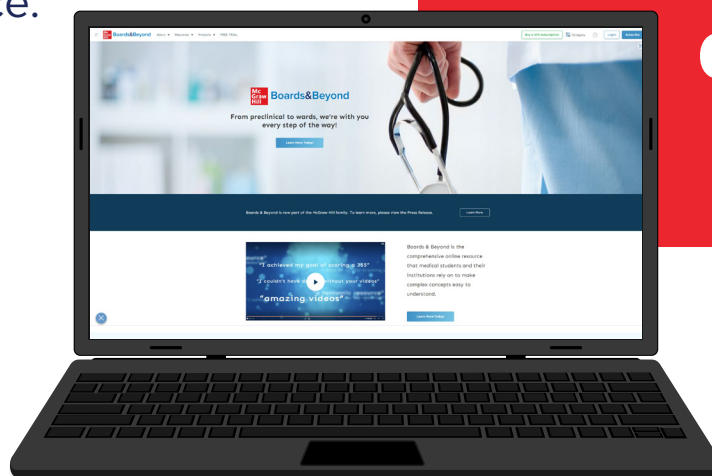

Boards & Beyond is a video learning solution that positions medical students for academic & clinical success by offering a vast collection of lectures, instructed by board-certified & specialist physicians, & question banks that build a solid learning foundation.

The video lectures are grouped in 4 content sets (**Pre-Clinical, Clinical, Clinical Confidence & OMM Series**), empowering students to supplement their classes, prepare for board exams & core clerkships and excel in their careers. It also integrates with **First Aid Forward**, enabling students to unlock our authoritative **First Aid** content to add to a more robust learning experience.

Used by
110,000+
students
world wide

800+ videos
& **3,600**
USMLE-styled
questions

Explore Boards & Beyond's Content

PRE-CLINICAL

- Offers an online virtual curriculum to supplement coursework during students' 1st & 2nd years of medical school, building their foundation in all pre-clinical subjects
- The content set includes 440+ videos & 2,300+ board prep questions

CLINICAL

- Expands students' foundation into clinical topics, including in-depth discussions of diagnosis and treatment that will help them strengthen their clinical reasoning & application skills and excel on board exams
- The content set includes 260+ videos & 1,390+ board prep questions

CLINICAL CONFIDENCE

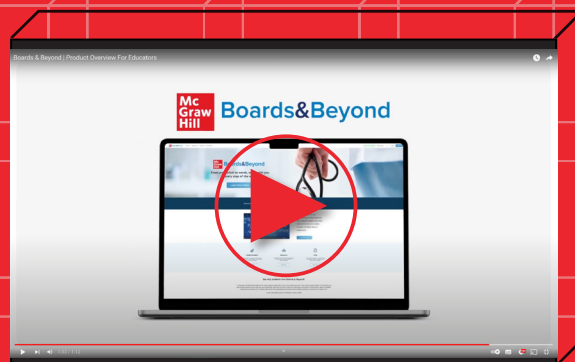

- Offers instructive videos that helps medical learners succeed in their transition from didactic education to practical/clinical learning
- Includes content that covers 'need-to-know' information on what to expect during clinical rotations & patient encounters, equipping them with what they need to stand out & be prepared when they begin their rotations

OMM SERIES (COMING SOON)

- Video lecture series designed to be used as a companion to Boards & Beyond's existing pre-clinical & clinical content
- Specifically tailored to osteopathic medical education and for students who are preparing for their board exams
- Lectured by Lauren Davis, DO

Help your students study smarter with Boards & Beyond

Flipped Classrooms

Boards & Beyond makes it easy to set up flipped classroom sessions. The flipped classroom approach is shown to improve student learning and optimize your face-to-face teaching time.

Faculty Tools

Institutions also have the opportunity to opt-in to our new Faculty Tools functionality with any Institutional Subscription. It allows instructors to invite their students into a private educational group where they can assign specific video playlists and custom quizzes. Instructors may create an unlimited number of groups, and can invite a TA to assist with creating assignments, monitoring student progress and communicating with the class.

Remedial Assignments

Guide students who are struggling with challenging concepts (such as biochemistry, genetics, or physiology) towards the exact content they need, with videos that explain complex topics in plain language, and USMLE-style questions to consolidate their understanding with explanations of both correct and incorrect answers.

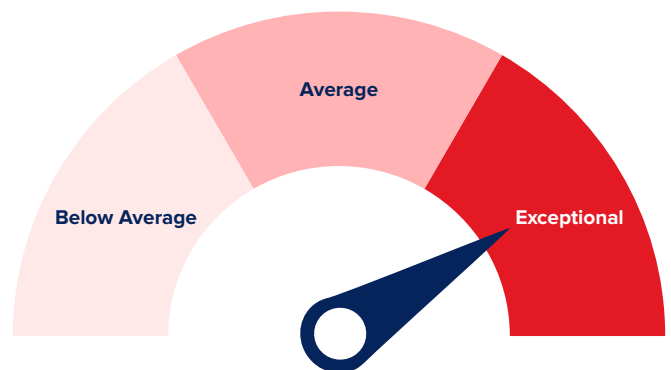

Self-Directed Learning

Give students access to a full library of lectures and questions to make use of any time they want to put extra time into studying a particular topic, whether for class, to prepare for clinical rotations, or to study for Board exams. With the ability to create custom playlists and quizzes, students are empowered to discover their own unique paths to learning.

Use Boards & Beyond to:

- Supplement your curriculum
- Enable self-directed study
- Help students excel on USMLE and COMLEX Board exams
- Boost performance in clinical rotation

The Content Solution in Detail

Video content that explains high-yield topics in ways that encourage understanding & mastery rather than just memorization

Question banks with USMLE & COMLEX-styled questions

Free access to downloadable PDF files containing all PowerPoint slides

Flag favorite videos for easy review later

Searchable topic index

Quiz performance tracking

Type and save notes online while you watch videos

Immediate access to new and updated content

Mobile access via browser on iPhone, iPad, and Android devices

Technical and customer support

Benefits for Faculty

(Institutional Subscriptions Only)

Boards & Beyond offers a unique opportunity for faculty members to customize their curriculum to meet the learning needs of their students --improving classroom engagement and overall outcomes. Instructors will have the capacity to leverage the solution's Faculty Tool feature and other supporting functionality to enable self-directed studying, flipped classroom styles & the creation of remedial assignments.

- Invite students into private educational groups where faculty can assign specific video playlists and custom quizzes
- Enhance curriculum and classroom lecture experience, while closing learning gaps and strengthening outcomes
- Link and re-purpose content (videos, slides, questions, etc.)
- Enable self-directed study
- Offer flipped classrooms
- Create remedial assignments, specifically for struggling students
- Help students excel on USMLE and COMLEX Board exams
- Boost performance in clinical rotation
- Appoint Group Admin and set up Groups in web app
- Invite other Group Admins (teaching colleagues) to share responsibility for your Groups
- Send assignments to the entire Group or to individual students within the Group
- Review student progress on quizzes
- Exchange messages with the entire Group or individual students within the Group

Benefits for Students

Medical students find great value digital learning platforms that supplement their classroom instruction. Boards & Beyond uses a mix of high-yield, expert developed video content, easy to understand teaching styles & vast question banks to help students advance in their medical education.

- **Fills in knowledge gaps** to contribute to a more comprehensive and complete learning experience
- **Focuses on the “why”** students need to know with clever explanations to ensure the information sticks
- **Identifies what’s important** for students to know
- **Improves student learning outcomes and engagement** by making it easy to set up flipped classroom sessions
- **Guides students who are struggling** with challenging concepts towards the content they need
- Delivers high-yield video content and extensive coverage of basic & clinical topics that are **developed & reviewed by practicing medical experts**
- Offers vast collection of **USMLE & COMLEX –styled question banks** with explanation of both correct and incorrect answers to reinforce comprehension and track progress
- **Gives students access to a full library** of lectures and questions to make use of extra time studying a particular topic, whether for class, to prepare for clinical rotations, or to study for Board exams
- **Helps students smoothly transition from didactic to clinical learning** & equips them with what they need to stand out & be prepared when they begin their rotations
